# MYN3RD
QUICK SETUP

1 Make sure you have downloaded the My N3RD app onto your iOS device.
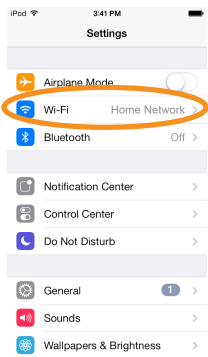

2 Power on the My N3RD Module. either use the included Power Supply or any other Power source with a voltage of 9-16 VDC (such as a car battery). If done correctly the "Power" LED should light up.
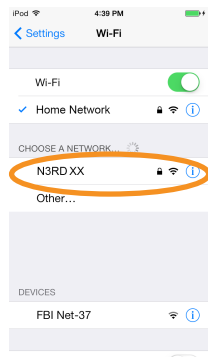

White Stripe is Negative

The very 1st time you connect to My N3RD, you will be prompted to enter a password. Leave this BLANK if you don't want to require a password. The password can be changed from the Settings Menu.
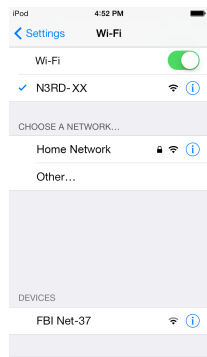

SETTING UP DIRECT CONNECTION
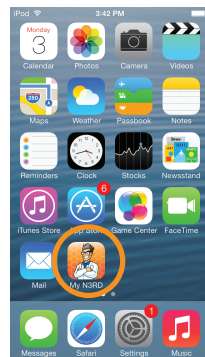

3 Open Settings App, Tap **Wi-Fi**

4 From **Choose Network** Tap N3RD XX
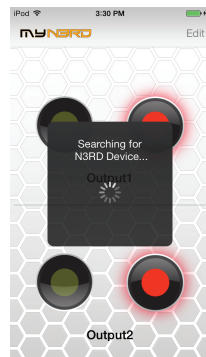

5 Once N3RD XX is connected close the settings app
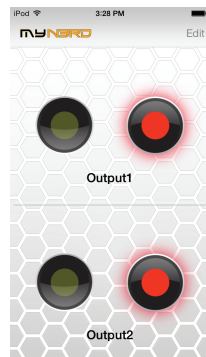

6 Open the **My N3RD** App
